RED ROSE COFFEE "is good coffee"

"Don't's" and "Do's"

With the coming of the summer vacation period, the opening of summer cottages, the flocking of people to resorts, and the inauguration of automobile touring parties, the time has also come when all those who enjoy the advantages of these pleasures and health-giving pursuits should give heed to the taking of those little precautions which require attention if real benefit and not harm is to result from a holiday.

People living in cities and towns with all modern conveniences at hand are sometimes apt to take unnecessary chances, and to neglect matters which are so essential to the maintenance of good health and the obtaining of full enjoyment and benefit from the relaxation which summer vacations afford. Because of these little oversights it has been demonstrated on more than one occasion that epidemics of sickness have had their origin in summer camps and vacation resorts.

Quite a few "don't's" are urged upon the attention of summer campers and vacationists, but all too frequently the things which ought to be done are overlooked. For example, people are urged not to leave a camp fire until they are assured that the last spark has been extinguished. They are warned not to unnecessarily cut down or mutilate trees and shrubs. Touring motorists are even asked not to pluck wayside wild flowers only to have them wither and die in a few hours, but to leave them blooming in their natural state, thus adding to the beauty of the highways and adding to the pleasure of all.

But there are "do's" which are equally, possibly more, important. The city camper, used to turning a tap in order to obtain pure water, should pay close attention to the source and quality of the water he uses for drinking and cooking purposes. Disposal of camp refuse and garbage demands careful attention. In towns and cities where there is methodical collection and destruction of such waste matter by the municipal health authorities, people are apt to forget that at camp and in summer resorts that duty involves upon themselves and that their own health, as well as of others, and the maintenance of enjoyable surroundings, depends upon how efficiently this is attended to. The proper thing is to bury all such matter, and bury it deep. Too much emphasis cannot be laid upon the importance of proper sanitary arrangements in camps, no matter how small, and at all summer resorts.

In every summer cottage, and included in the equipment of all touring parties, there should be a small First Aid kit containing those few simple but essential things required in case of minor accidents, poisoning, severe sunburn, etc. Remembering that a doctor or nurse may be many miles distant such simple remedies, and the easily understood directions which go with such a kit, may result not only in relieving pain and discomfort, but actually preventing serious illness.

A little consideration given to these matters at the opening of the camping season may mean all the difference between a summer vacation proving both enjoyable and beneficial and just the reverse.

Jealousy At Empire Show

Some Overseas Workers Think They Should Receive Official Recognition

When the British Empire Exhibition at Wembley closed last year there was keen disappointment among the persons who had actively participated in the big show because no titles or other honors were bestowed upon them in recognition of their services.

Some of the dominions, not including Canada, felt hurt that, while the English chairman of the exhibition standing committee, Sir James Stevenson, was elevated to the peerage as Baron Stevenson, and the two luminaries of the exhibition next to him were the recipients of minor titles, no such recognition was accorded overseas workers.

Truth says very few officials of the British Empire Exhibition last year deserved any recognition whatever, seeing that they were absurdly overpaid and received extravagant entertainment allowances. One of the mistakes which caused last year's losses, Truth says, was the conflict between the military and civilian administration of the exhibition, and the bickering of last year is being continued this year.

An Underground Garage

Parking Space Beneath Leicester Square, London, Would Relieve Traffic

An underground parking place is planned beneath Leicester Square, London. The model provides that cars and motorcycles shall enter and leave on the near side of the road, and thus avoid crossing other lines of traffic. Two entrances and exits will be necessary in case of breakdowns, accidents and repairs, but the entrances and exits would be easily controlled. All the parking space would be available without crossings, as the traffic would circulate in one direction only. Stairway accommodation would be provided between the underground garage and the street level.

Italy Will Pay Says Premier

War Debt to United States Amounts To \$2,138,543,852

Italy's sacrifices in the world war and her lack of riches entitle her to be placed in the category of privileged nations in regard to her war debts to Great Britain and the United States, in the opinion of Premier Mussolini, who spoke before the senate on the foreign affairs budget.

Italy's war debt, said the premier, amounted to 100,000,000,000 lire, half of which was to the United States. (Italy's war debt to the United States amounts to \$2,138,543,852.)

"The Italian Government recognizes its debts and has declared that, compatible with its present and future economic and financial situation, it will face its debts," the premier said.

A GRATEFUL LETTER

From a Lady Made Well By Dr. Williams' Pink Pills

"I wish from my heart I could persuade every person who is run down in health to give Dr. Williams' Pink Pills a trial." Thus writes Mrs. Louie Mitchell, Oak Point, Man., who further says:—"About a year ago I was a weak woman, suffering from a run down system and impoverished blood. Any little exertion would cause my legs to tremble and my heart to throb violently. I could not sweep a room or walk fifty feet without being exhausted. Then I began taking Dr. Williams' Pink Pills and after taking only six boxes I am as well and strong as ever. I can walk and run without stopping every few seconds gasping for breath as previously. Dr. Williams' Pink Pills will be my stand-by in the future if ever my blood needs building up again, and I shall always find pleasure in recommending them to anyone needing a tonic.

There are many troubles due to weak, watery blood which can easily be overcome by a fair use of Dr. Williams' Pink Pills. The sole mission of this medicine is to enrich and purify the blood and when that is done all the varied symptoms of anaemia disappear, and good health returns. You can get these pills through any dealer in medicine or by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

First Typist Passes

The First Woman to Operate a Typewriter For a Salary

There has just passed away in New Jersey at the age of 75, Mrs. Mary Saunders, who was the first woman to work a typewriter for a salary and as a recognized occupation. When Mrs. Saunders first became a typist she used a machine that nowadays would seem only an interesting relic of a primitive past. It was ridiculously slow, but before she retired Mrs. Saunders was typing 100 words a minute on better machines. So smoothly and imperceptibly has the typewriting machine clicked its way into favor and power that people are apt to forget how much they owe to it, and that there was a day, not so long gone, when all such devices were regarded as nothing more than ingenious and impracticable toys.—Vancouver Province.

WILL POINT OUT DEFAULTS IN A NOTE TO GERMANY

London.—Germany's defaults relative to disarmament, as specified by the Treaty of Versailles, have been outlined for presentation to Berlin in a note that probably will be dispatched this week by the council of ambassadors.

The note and a covering letter, which have been agreed upon by France and Britain, will point out that, in view of the fact that the allied committee of control has concluded that Germany has not fulfilled all of her disarmament obligations, the allied experts have agreed upon a list of defaults which will be in very plain language.

On the whole, France considers Germany has fulfilled her obligations in the destruction of armaments, say French authorities here, but there are still 30 or 40 factories for war-materials which yet are to be transformed into commercial establishments. Objection also has been raised to the large German war staff and the state police.

Unique Ceremony In Winnipeg

"Unknown Soldier's Cross" From Flanders Presented at Toc H.

Winnipeg.—A ceremony such as has never before been witnessed in Canada marked the solemn presentation of the "Unknown Soldier's Cross" at the headquarters of Toc H. (Talbot House), by Major-General H. D. B. Ketchen, officer commanding Military District No. 10 here. The little wooden cross, with the mud of Flanders still clinging to it, was forwarded to Mark One of the Empire-wide organization, by Field Marshal Lord Plummer as a symbol of sacrifice.

The cross once marked the grave of a Canadian soldier who gave his life in service on the battlefields of Flanders and whose identity never has been established.

Veteran and other patriotic organizations attended the impressive ceremony.

Mounties Could Have Joined Wembley Parade

Left Out to Reduce Length is Explanation Given

London.—The department of overseas trade informs the Canadian Press that the reason why the members of the Royal Canadian Mounted Police, now doing duty at the Canadian pavilion of the British Empire Exhibition, had not a place in the military procession in connection with the Empire Thanksgiving service in 1925, was because the department was under special instructions to reduce the length of the procession this year, instead of having it as long as it was last year.

If the Canadian authorities had asked for the Mounted Police to be included in the parade, the department states, arrangements for this would gladly have been made.

Will Be Driven Through Calgary Streets In Jubilee Parade

Calgary.—When the historical pageant, which will mark the fiftieth anniversary of the birth of the city of Calgary is held on the morning of July 6 this year, Calgaryans and visitors to the city will see for the first time in history two full-grown Alberta buffaloes driven in harness through the streets of the city, attached to an appropriate cart.

The buffaloes have been shipped to J. M. Dillon, well known stockman of this city, by Oscar Duclos, of Edmonton, the packing plant magnate, and they are being broke to harness in this city by Harvey Shore and Bert Bishop. When first received several weeks ago, the buffaloes were almost unapproachable, but nothing daunted, the cowboys "gentle broke" them, and now they are being driven in harness and will follow any person who shows them a tin of oats.

Discuss Administration Of Canteen Funds

Very Doubtful If Detailed Statement Will Be Furnished

Ottawa.—The assertion that it was extremely doubtful if a detailed statement of all specific items of expenditure would be furnished by the Dominion Command of the Great War Veterans' Association, regarding monies received from the canteen funds, marked the inquiry of a special committee of the senate, into the administration of the canteen and disablement funds, the uses to which advances from these sources have been put, and the sale and manufacture of paper poppies. Payment of \$25,000, by the Great War Veterans' Association for stock in The Veteran newspaper, and a further payment of \$8,000 for subscriptions to The Veteran, also came under discussion.

It was explained that all the funds of the association were merged in one consolidated account, and that moneys received from the canteen fund had been given to extend the scope and usefulness of the association.

A statement of expenditures from this consolidated account was, however, available.

A New Industry

Manitoba Farmers To Go In For Hemp Growing

Winnipeg.—Hemp growing is likely to become a permanent industry among the farmers of the Portage Plains district. Various farmers have agreed this year to cultivate ten acres each, the total to be cultivated this year being 300 acres. The seed is being distributed.

The Manitoba Fibre Mills, Limited, are negotiating for frackage, and it is announced that a hemp mill will be in operation by fall.

Acquiring B.C. Creamery Plants

Vancouver.—P. Burns, Calgary, head of P. Burns and Company, Limited, confirmed reports that the firm has under way negotiations with a view of acquiring co-operative creamery plants at Salmon Arm, Vernon and Armstrong, in the interior of British Columbia.

Canadians Get Honors At Yale

New Haven, Conn.—Four Canadians are among the 127 students who have been awarded fellowships and scholarships for graduate study at Yale University next term, including Carl Tolman, Vancouver, B.C.

REDUCED RATES ON LIVESTOCK IS SUGGESTION MADE

Ottawa.—Dr. J. H. Grisdale, deputy minister of agriculture, advocated a \$15 per head rate on cattle shipped from Canada to Britain, as compared with the prevailing rate of \$20, before the special parliamentary committee on ocean rates. He thought \$15 for a matured steer was a reasonable rate when prevailing prices were considered, and if lighter animals were carried five in a stall, the rate might be decreased.

"A reduction in the rate would open up a market, the value of which is scarcely calculable," the witness said. He compared the \$7.00 cattle rate of some years ago with the rate prevailing today, and said that the present rate was making it difficult to build up the Canadian cattle industry. Not only would the Canadian cattle shipper benefit from a lower rate, but the steamship companies would be assured of regular cargoes, because of the development of the industry. There was practically an unlimited market for Canadian cattle in Britain, and, at present, space was inadequate.

Relief For Soldier Settlers

No Further Legislation In View Says Hon. J. A. Robb

Ottawa.—During the debate in the House of Commons on the resolution providing a credit to the account of any soldier settler whose contract with the government had not yet expired, or forty per cent. of the value of all livestock advanced and purchased before October 1, 1920, and 20 per cent. of the purchase price of all livestock in the following twelve months, J. H. Harris, Conservative, York East, stated that there seemed to have been no attention paid by the government to the question of relief in respect to the excessive cost of chattels to the soldier settlers. In one case where a soldier had paid \$250 for a bay mare, ten years old and \$35 for 25 hens, he thought that livestock at this price was rather expensive and asked what was the policy of the government in regard to affording relief in such cases.

Hon. J. A. Robb, minister of immigration and colonization, replied that he would have the case of the soldier settler referred to by Mr. Harris looked into, but that no further legislation is in view in regard to this matter.

Communists On Rampage

Terrorize Council Members In Town In France

Paris.—Communists invaded a meeting of the city council at the city of Ville Neuve-Le-rolle, and compelled the members of the council to sign a document proclaiming the dissolution of that body. The Communists then forced the councillors to leave the room in the city hall, where they had been in session. Later, police, summoned by the ousted city officials, attacked the invading Communists and routed them.

Public Shooting Grounds

Edmonton.—Thirty-two public shooting grounds in Alberta will be available for general use next shooting season, under the new regulations recently made by the Dominion authorities. The location of these grounds has now been announced, an order-in-council having been passed at Ottawa setting forth the particulars of areas thus reserved in the three prairie provinces.

Wins Medal At McGill

Montreal.—Many westerners were among the students graduating at McGill University, May 25. A British Columbian, T. H. John, of Victoria, won the Stevenson gold medal for dentistry.

Named Army Chief

Berlin.—Miss Mary Booth, second daughter of Gen. William Bramwell Booth, has been appointed head of the Salvation Army in Germany, succeeding Commander Oegrin.

Scottish Church Union

Edinburgh.—The general assembly of the Church of Scotland, by an overwhelming majority, carried a resolution approving union with the United Free Church.

Municipal Co-operative Hail Insurance.

Here are facts that will pay the farmer—and pay him well—to consider.

That in the last six years the farmers' own co-operative plan, The Municipal Hail Insurance, carried 67 per cent of the total hail insurance written in Alberta.

That out of every dollar hail insurance tax imposed under the Municipal Hail Insurance plan, 85 cents was returned to the farmer in payment of losses, 8 1-3 cents went to the reserve fund and 6 2-3 cents paid all costs of administration.

Support your own co-operative plan.

Mountain View Notes.

The Mountain View W.I. met in the hall Friday. Resolutions to be presented at the annual convention of the A.W.I. in Edmonton were discussed. Mrs. Atkinson was appointed as delegate to the convention, as Mrs. Haynes is unable to go, owing to the illness of her little daughter Irene.

The bazaar and dance proved to be quite a social success and netted the W.I. thirty-five dollars. The ice-cream was quite popular with the dancers.

Arbor day was observed at the Gore school on Wednesday, May 20th, by a general clean-up followed by a picnic lunch.

The above items were unavoidably held over from last week.—Ed. Pioneer.

Mrs. H. Pearson and Mrs. H. Atkinson attended the W.I. convention at Edmonton and report a very successful session.

Mr. and Mrs. Chandler are to be congratulated on the birth of a son.

We extend congratulations and best wishes to Mr. and Mrs. Dawson on their recent marriage.

The Neapolis ball team played Sunnyslope on Friday evening and lost to the tune of 4-6. This team can furnish a much better sample of ball than that on Friday and we hope to see the tables turned in the near future.

Don't forget the annual picnic of the Burnside U.F.A. on June 30th. This is one of the most important events of the season, so keep the date in mind.

The intermediate baseball team, trimmed Gore 15-14 on Sunday on the Gore diamond. Next Sunday they play Coburn and we hope to see their good luck continue.

Miss Claribell Miller is expected home this week for a fortnight's

holiday under the parental roof.

Mr. McNeill, a Presbyterian student, holds church and Sunday school every Sunday at Burnside.

H. Sheils spent Sunday evening with Fred and Mrs. Boulton.

The next meeting of the Lone Pine W.I. will be held at the home of Mrs. Hugh McLean on Thursday, June 11th.

Rosebud.

A well attended ball game between the Rosebud and Cloyermount teams took place on Saturday evening in Didsbury. The score was 13-4 in favor of the Rosebud players.

John Deadrick motored to Calgary on Saturday.

Watson Thurlow has been ill in bed for several days, but is improving.

Mr. and Mrs. J. Mullen entertained several visitors on Sunday. Mr. and Mrs. Langdon Liddle, Mr. and Mrs. J. Ruby, Miss Pearl Ruby and Mr. and Mrs. Axtell were among the guests.

A chicken and oyster dinner was enjoyed by a number of friends at the home of Mr. and Mrs. E. L. Barnes, Sunday, May 31st. Those present were Miss Nellie Wilson, West Finley, Miss Irvine, James Devolin, Mr. and Mrs. Harold Tighe and family, Mr. and Mrs. Tom Finley, Rollie and Nola, and Mr. and Mrs. Ellis Barnes and family. In the afternoon three cars of the guests took a car drive, returning to the Barnes home for ice-cream and cake.

A dance will be held at Rosebud school on Friday, June 19th. MacDonald's orchestra will play and refreshments will be served. Dancing at nine o'clock.

SCHOOL FAIR SHORT COURSE

For the fourth time a Scholarship Short Course is to be held at the Olds Agricultural School from June 29th to July 4th inclusive.

This Short Course is given as a reward for effort in school fair work during the previous year.

The course will consist of lectures and laboratory work on field crops, dairying, carpentry, livestock, horticulture, cooking, sewing, etc. Physical training, group games and community singing will have a prominent place. The course will be run on strictly schedule time each day, beginning with the Reveille at 6:30 a.m. and closing with lights out at 10 p.m.

The course is entirely free to those attending, even to the R. R. fare and sustenance. Pupils are housed and fed in the main school building and are at all times under the supervision of members of the school staff.

These courses are given for two purposes:

1st. To stimulate effort and enthusiasm in school fair work.
2nd. To familiarize boys and girls with the opportunities offered in a course at the School of Agriculture.

Already the effects of the short courses are being shown in an improvement in the school fair exhibits and in the enrolment in our regular school courses of a number of former short course pupils.

The boy and girl having the highest scores of points in the Didsbury School Fair centre are:

Evelena Haynes, of Neapolis School and Thomas Pratt, of Grande Prairie School.

Here and There

According to the Alberta Provincial Department of Agriculture nearly a quarter of a million bushels of oats were shipped from that province to New Zealand for seed purposes last winter.

The Quebec Provincial Automobile Bureau estimates that well over 100,000 automobiles will be registered in that Province during the year. This will mean an increase over the 1924 registration of about 15,000 cars.

The 1924 exports of live cattle to Great Britain exceed the 1923 figures by over twenty-two thousand heads, according to the official Canadian returns. Exports to the United States also showed a slight increase.

Four small wooden vessels to act as tugs and feeders from Coronation Gulf to Herschel Islands, in the Arctic, are being built at Vancouver, B.C., to the order of the Hudsons Bay Company. They will be well powered and sheathed in iron bark.

There is now only one mine in the Crow's Nest Pass district idle. Between eight and nine thousand tons of coal are being mined there daily and the mines at Coleman, Blairmore and Bellevue are rapidly striking their stride, their output being about six thousand tons.

Although the chief beneficiaries under the new British preference proposals will be Canadian sugar, tobacco and automobiles, it is stated that Canadian wines and silk goods will also benefit to a certain extent. In the sugar preference, an increase of about 25%, and in tobacco of from a fourth to sixth has been made.

By a recent Order-in-Council of the Lieutenant-Governor, premiums for clearing land, which had previously been set at \$4 an acre, were increased to \$8. The Order also provides that the premium will be paid for a maximum of twenty acres of land and, as a result of it, a settler may obtain a grant of \$160 from the Government as a reward for his work.

The annual invasion of Canada by anglers from the United States has commenced. F. N. Peet, secretary of the Isaak Walton League of Chicago, with other members of the League is catching salmon at Cains River, N.B., while a party of prominent newspapermen from New York is at Lake Archambault, in the Laurentians, in quest of the elusive trout. Mr. Peet holds the world championship for casting a fly.

ANNUAL AGRICULTURAL STATISTICS OF CANADA, 1925

It is announced by the Dominion Bureau of Statistics at Ottawa that the annual census of field crops and live stock for 1925 will be made this June. These statistics are collected jointly by the Dominion and Provincial Governments by means of cardboard schedules issued to farmers through the rural school teachers and children. In British Columbia they are mailed direct to the farmers. These schedules call for the acreage sown this year to the principal field crops and for the numbers of farm animals alive on the farm in mid-June. The areas thus collected form the basis of the annual statistics of acreage and yield. It is very important for all classes in Canada that correct statistics of agricultural production should be published, but it is especially so for farmers themselves who through co-operative wheat pools are now undertaking to market their own wheat and other products; because accurate statistics are essential to the fixing of fair prices. Any farmer who has not received the blank cardboard schedule through the rural school of his school district or otherwise by the middle of June should make immediate application for same, either to the teacher of the Public School District in which he resides, to the Provincial Department of Agriculture at the capital of his province, or to the Dominion Statistician at Ottawa.

The Billingham Ferry that meets all the Autos

Have you ever heard of Clo-ose? Appearances may be against it, but it is not a typographical error; neither is it a bird-call, nor Chinese for chewing-gum. It is, as a matter of fact, a thriving town on Vancouver Island, rapidly becoming famous for its salmon, shooting and scenery, and as one of the most interesting spots on the coast of British Columbia.

This coast is yearly becoming more popular with tourists from the South—California, Seattle, etc., Eastern Canada and practically everywhere else. But that detached portion of the coast, known as Vancouver Island is especially attractive. It possesses beauty of a mountainous, rugged, arboreal type, excelled in magnificence only by the Rocky Mountains and unexcelled anywhere for its hunting and fishing. Incidentally, too, the island is traversed by paved, winding highways, which are a delight to motorists and a credit to the Provincial Highway Department.

Indians (who have become so used to tourists, they no longer scalp them) inhabit most of the villages which are scattered along the Coast. They have not, however, entirely abandoned the practice of scalping, but nowadays they confine their activities in this respect to salmon, herring, and similar trifles. They (the Indians not the whales), are a thrifty, sober, industrious people engaged for the most part in catching fish and canning them in the local factories.

The island is reached by means of a ferry-boat—"The Motor Princess"—operated by the Canadian Pacific Railway between Billingham, on the mainland and Sidney, on the island. This ferry is especially adapted to the transportation of automobiles and enables the tourist to run his car straight off the mainland highway, across the Gulf of Georgia and on to the island highway, which he can follow south to

Part of Coast of British Columbia showing route of auto ferry boats between Vancouver Island and the mainland. Victoria, the capital of the province, and thence north to Nanaimo, Clo-ose or any of the other attractive parts of the island. It is an extremely pleasant trip, full of interesting cut-of-the-ordinary sights and anybody who has toured British Columbia without visiting Vancouver Island—and Clo-ose—ought to tour it again and correct a most unfortunate omission.

Palestine To Have Its Own Coinage

Over Thousand Years Since Last Last Coins Were Issued By Jews Palestine, by a recent decision of the British Government, is to have its own coinage, the names of the units—shekels, dinars and prutahs—being those used in an ancient monetary system closely connected with Jewish history.

It was about one thousand eight hundred years ago that the last coins issued by a Jewish nation were put into circulation.

"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

CHAPTER XXI.—Continued

"He said that!" she cried. "He did that! Oh!" she turned away, and through the slender, clustering trunks of the bordering orange trees she looked out across the glittering waters of the great harbor to the distant hills. Thus for a little while, my lord standing stiffly, fearfully, waiting for fuller revelation of her mind. At last it came, slowly, deliberately, in a voice that at moments was half suffocated.

"What weighs—oh, so heavily and bitterly—is the thought that but for the words in which yesterday I repelled him, he might have been saved. And now he is lost—back at his out-lawry and piracy, in which ultimately he will be taken and destroyed. And the fault is mine—mine!"

"You have no cause for shame," said he. "As for your sorrow—why, if it will afford you solace—you may still count on me to do what man can to rescue him from this position."

"You will do that!" she cried with sudden eager hopefulness. "You promise?"

"I promise," he answered her. And then, retaining still the hand she had surrendered to him—"Arabella," he said very gently, "there is still this other matter upon which you have not answered me. This matter that concerns myself, and all my future, oh, so very closely. This thing that Blood believed, that prompted him . . . that . . . that you are not indifferent to me." He saw the fair face change color and grow troubled once more.

"Indifferent to you?" said she. "Why, no. We have been good friends; we shall continue so, I hope, my lord."

"Friends! Good friends?" He was between dismay and bitterness. "It is not your friendship only that I ask, Arabella. You heard what I said, what I reported. You will not say that Peter Blood was wrong?"

Gently she sought to disengage her hand, the trouble in her face increasing. A moment he resisted; then, realizing what he did, he set her free.

"Arabella!" he cried on a note of sudden pain.

ABLE TO DO HOUSEWORK NOW

Sick a Year. Got Great Benefit from Lydia E. Pinkham's Vegetable Compound

Bloomington, N. S.—"I took Lydia E. Pinkham's Vegetable Compound for pains and backache, also for nervousness, sick headaches and sleeplessness. I was troubled in this way for over a year, and a friend told me about the Vegetable Compound and induced me to take it. I must say I have received great benefit from it and am able to do my housework now. I recommend the Vegetable Compound myself and am willing for you to use this letter as a testimonial."—Mrs. WILLIAM MORSE, Bloomington, Annapolis County, N. S.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes." This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

Mrs. Morse is simply another case of a woman receiving "great benefit." Women suffering from the troubles so common to their sex should listen to what other women say who have experienced the same sufferings and found relief. Give this dependable medicine a chance—and at once. It is sold at all drug stores.

"I have friendship for you, my lord. But only friendship."

"Is it Peter Blood?"

"Peter Blood?" she echoed. "I do not know," she said, faltering a little.

When the Jamaica fleet put to sea some few days later, Lord Julian sailed with Colonel Bishop in Vice-Admiral Craufurd's flagship. They cruised awhile off Hispaniola, watching the Windward Passage, but they cruised in vain, and, after a month of it, returned empty-handed to Port Royal, there to find awaiting them the most disquieting news from the Old World.

The megalomania of Louis XIV. had set Europe in a blaze of war. The French legionaries were ravaging the Rhine provinces, and Spain had joined the nations leagued to defend themselves from the wild ambitions of the King of France. And there was worse than this: there were rumors of civil war in England, where the people had grown weary of the bigoted tyranny of King James. It was reported that William of Orange had been invited to come over.

"Then with Blood dead, perhaps she will come to her senses."

Weeks passed, and every ship from home brought additional news. William had crossed to England, and in March of that year, 1689, they learnt in Jamaica that he had accepted the crown and James had thrown himself into the arms of France for rehabilitation.

To a kinsman of Sunderland's this was disquieting news, indeed. It was followed by letters from King William's Secretary of States informing Colonel Bishop that there was war with France, and that in view of its effect upon the Colonies a Governor-General was coming out to the West Indies in the person of Lord Willoughby, and that with him came a squadron under the command of Admiral van der Kuylen to re-enforce the Jamaica fleet against eventualities.

Bishop realized that this meant the end of his supreme authority, even though he should continue in Port Royal as Deputy-Governor. Lord Julian, in the lack of direct news to himself, did not know what it might mean to him. But he had been very close and confidential with Colonel Bishop regarding his hopes of Arabella, and Colonel Bishop more than ever, now that political events put him in danger of being retired, was anxious to enjoy the advantages of having a man of Lord Julian's eminence for his relative.

"There is one obstacle in our path," said his lordship. "Captain Blood. The girl is in love with him."

"The braten baggage! By God! I'll bring her to her senses."

"Don't be a fool, Bishop. Listen, man. She has a constant mind."

As long as Blood lives she will wait for him."

"Then with Blood dead, perhaps she will come to her silly senses."

"Now you begin to show intelligence," Lord Julian commended him. "That is the first essential step."

"And here is our chance to take it," Bishop warmed to a sort of enthusiasm. "This war with France removes all restrictions in the matter of Tortuga. We are free to invest it in the service of the Crown. A victory there and we establish ourselves in the favour of this new government."

"Ah!" said Lord Julian, and he pulled thoughtfully at his lip. Bishop laughed coarsely.

"We'll hunt this rascal in his lair, right under the beard of the King of France, and we'll take him this time, if we reduce Tortuga to a heap of ashes."

On that expedition they sailed two days later—which would be some three months after Blood's departure—taking every ship of the fleet, and several lesser vessels as auxiliaries. To Arabella and the world in general it was given out that they were going to raid French Hispaniola.

CHAPTER XXII.

The Service of King Louis

Meanwhile, some three months before Colonel Bishop set out to reduce Tortuga, Captain Blood, bearing hell in his soul, had blown into its rock-bound harbour ahead of the winter's gales, and two days ahead of the frigate in which Wolverstone had sailed from Port Royal a day before him.

In that snug anchorage he found his fleet awaiting him—the four ships which had been separated in that gale off the Lesser Antilles, and some seven hundred men composing their crews.

His captains, Hagthorpe, Christian, and Yberville, were on the jetty to receive him, and with them were some hundred of his buccaniers. When

they plagued him with questions, he bade them await the coming of Wolverstone, who would satisfy their curiosity, and took his way alone to the fine house of M. d'Ogeron, there to pay his respects to his friends, the Governor and the Governor's family.

When the Old Wolf cast anchor in the bay two days later, it was to him all turned for the explanation they were about to demand of Blood. Now Wolverstone had only one eye; but he saw a deal more with that one eye than do most men with two; and he had the sound heart of a boy, and in that heart much love for Peter Blood.

Anon when ashore he was beset by questioning buccaniers, it was from their very questions that he gathered exactly how matters stood, and perceived that either from lack of courage or other motive, Blood, himself, had refused to render any account of his doings since the Arabella had separated from her sister ships.

"The Captain was ever a modest man," he explained to Hagthorpe and those others who came crowding round him. "It's not his way to be sounding his own praises. Why, it was like this. We fell in with old Don Miguel, and when we'd scuttled him we took aboard a London pimp sent out by the Secretary of States to offer the Captain the King's commission if so be him'd quit piracy and be o' good behaviour. The Captain damned his soul to hell for answer. And then we fell in w' the Jamaica fleet and that grey old devil Bishop in command, and there was a sure end to Captain Blood and to every mother's son of us all. So I goes to him, and 'accept this poxy commission,' says I; 'turn King's man and save your neck and ours.' He took me at my word, and the London pimp gave him the King's commission on the spot, and Bishop all but choked himself with rage when he was told of it. But happened it had, and he was forced to swallow it. We are King's men all, so into Port Royal we sailed along o' Bishop. But Bishop didn't trust us. He knew too much. But for his lordship, the fellow from London, he'd ha' hanged the Captain, King's commission and all."

Modern Advertising

One of the principles insisted upon by the exponents of modern advertising is that truth is more potent than deceit. First, the advertiser ought to have something worth selling; then his business is to let people know about it and to show how it is fit his power to serve them to advantage.—Hamilton Herald.

SUNDAY SCHOOL LESSON

JUNE 7

PETER'S BROADENING VISION

Golden Text: Of a truth I perceive that God is no respecter of persons. Acts 10:34.

Lesson: Acts 10:1 to 11:18.

Devotional Reading: Isaiah 61:1-9.

The Text Explained and Illumined
I. Peter Condemned by the Church at Jerusalem, verses 1-4. The apostles and the brethren at Jerusalem heard that Peter had preached to Gentiles in Caesarea, and on his return to Jerusalem they rebuked him, not for the preaching, but for having gone into the house of Gentiles and eaten with them—the scandal of it! "You went in to men uncircumcised and ate with them!" they exclaimed in horror. Up to this time Peter's authority had been unquestioned. It must have cut him to the quick to have his actions challenged. He did not quail, but justified his conduct, explaining the occurrences to them just as they had happened.

II. Peter's Vision and Its Lesson, verses 5-10. Webster defines a trance as "A state in which the soul seems to have passed out of the body into another state of being, or to be wrapped in visions; an ecstasy." It was while Peter was praying in the city of Joppa that he fell into a trance and had a vision by which God taught him a great truth.

Earl Of Ypres Dead

British World War Hero Was Seventy-three Years Old

The Earl of Ypres, better known as Field Marshal French, British world war hero, died at Deal, England, May 22, aged 73.

Since his retirement from his post in Ireland in 1921, the Earl of Ypres had lived quietly. His last appearance, at a Canadian ceremony, was on July 8, 1923, when he assisted in the unveiling of a memorial erected by the Canadian battlefields commission near Ypres, to perpetuate the honor of those who fell in the second battle of Ypres.

His heir is his son, Viscount French.

Progress of the Dirigible

Cumbersome Machines Are Slowly Becoming More Air-Worthy

These are cumbersome affairs, unwieldy in gales, and in many respects they have hardly emerged from the experimental stage. Year by year, however, they become a little more air-worthy, a little more able to come safely through gales and mishaps. They are not so nearly masters of the skyroads as the aeroplane, but they seem to be slowly and sometimes painfully achieving that mastery.—New York Post.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

Military Funeral For Dog

At Norfolk, Va., the reward of a faithful soldier was accorded "Peggy," English sheep dog, by members of the Veterans of Foreign Wars. They marched behind her flag-draped casket and fired a salute at the grave. "Peggy" fought with the British in Flanders, was several times wounded in action and was credited with having saved many lives.

It Will Relieve a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try it and prove it.

French Are Peaceful People

All Classes Living in Dread Of Another War

Contrary to foreign opinion—which will not understand and will not learn—France is the most pacifist country in the world. I have talked with peasants in the fields, with professional men and intellectuals, with shopkeepers and politicians. The one idea that dominates their minds is the dread of another "inevitable" war. They are divided only, by hopeless disagreement, as to the policy by which that war may be averted.—Sir Philip Gibbs, in the World's Work, New York.

Discover New Gas In Sun

Total Eclipse In January Gave Scientists Their Chance

A new gas has been discovered by scientists as a result of the observations made during the recent total eclipse of the sun, according to Professor Frederick Slocum, head of the Van Vleck Observatory at Wesleyan University.

Professor Slocum says that the only time the scientists can study the gas about the sun is when the sun is in total eclipse. In January, their brief observations determined that there is a gas there whose presence they had not recognized before.

Professor Slocum said scientists are not prepared as yet to name the gas or to discuss its probable properties.

MOST OLD FOLKS REQUIRE A HEART AND NERVE TONIC

After middle age little sicknesses and ailments seem harder to shake off than formerly as the heart action becomes weak and uncertain and the nerves are not as steady as they were in the younger days.

Now is the time when all aged people who wish to maintain their health and vigor and retain their energy unimpaired should use

MILBURN'S HEART AND NERVE PILLS

Mrs. M. O'Connor, Whitestone, Ont., writes:—"I have been troubled, most of my life, with shortness of breath, palpitation of the heart, and fainting spells. I was advised, by a friend, to try Milburn's H. & N. Pills, which I did, and at once found relief, and I have never had a really bad spell since. I am 80 years of age and I always keep them in the house, and feel that with their help I will see many years yet. I always recommend them to anyone who is suffering from heart trouble."

Madame Albani Appointed Dame of the Order of the British Empire

Singular tribute was paid to Madame Albani, famous Canadian prima donna, who has been appointed dame of the Order of the British Empire, when royalty, representatives of the English society and prominent leaders in the world of arts, attended a benefit concert at Covent Garden today for the aged singer, who is now living in retirement in London.

The royal box was occupied by Princess Mary and many other royalties. Madame Albani, who occupied another box with her party, was presented with huge bouquets by Madame Melba, representing music, and Mrs. Kendal, representing the drama.

A Witty Speech

Bishop Vaughan, of Sebastopolis, a brother of the famous Father Bernard Vaughan, spoke at a recent dinner in London and made a witty speech. Among other things he said that at such dinners it was a good thing to have a "big gun"—a canon, or possibly a bishop or two. "But," he added, "you always find the bigger the gun, the bigger the bore. The longer the spoke, the bigger the tire."

When a man is long on schemes he is usually short financially.
